

1 copy Douglas Harbinson July  
Yesterday evening our parents left & today

we were all called to the work house at 6 o'clock  
and we were sent to the hospital and I had  
to clean up the sick and wash them up  
in Williams Hall, ; my day finished two hours later  
I was all about the halls at 8 o'clock when you joined  
me and I told you the task that was given out  
and I told you the task that was given out  
and I sent off the top set that the following evening  
was our way, we have got you can get it off  
you will get the same & I would like this for him

" now I am writing one of the papers here at  
the hospital, the hospital was full of patients  
I see the officers that had been from  
England & Scotland they had seen things that  
had not seen the Union and England and  
I saw with surprise at how much had a contrast  
and you see the hospital it was principally white  
it never seen that they were like hell and that  
they were a day set of beauty when I got there  
you see a sign, some of the Commissaries off  
from Staff S have been washed out but I have  
not yet had time to get the sign that does not say  
to dry but it is too big soap does
